Summary

Computer Engineering graduate focused on mobile development, with hands-on experience building applications using Flutter/Dart and native Android with Kotlin. Experienced with Firebase, Android SDK, Riverpod and GoRouter. Familiar with REST APIs, responsive UI development and maintainable application architecture.

Projects

Buluşalım — Community & Meetup Mobile App, Flutter, Dart, Firebase,

- Developed a Flutter-based mobile application for discovering communities and local events.
- Implemented user-focused flows such as authentication, profiles, event creation and participation management.
- Used Firebase services for storing and managing user, event and community data.

Tomodoro — Gamified Focus App, Kotlin, Android Studio Firebase

- Developed a native Android productivity app in Kotlin using the Pomodoro technique.
- Implemented focus timers, session tracking and gamification-oriented user flows.
- Designed reusable UI components and managed timer-related application states

TruthLens — AI Image Analysis Tool, Flutter, Dart, REST API, AI Integration

- Developed a Flutter application that allows users to upload images and receive AI-based authenticity analysis results.
- Integrated an AI analysis API and handled image upload, loading, error and result states.
- Designed a simple user flow for image selection, analysis and result presentation.

Technical Skills

Languages & Frameworks — Flutter, Dart, Kotlin

State Management & Navigation — Riverpod, GoRouter, ViewModel, StateFlow, Jetpack Navigation

Backend & APIs — Firebase, Firebase Authentication, Cloud Firestore, Firebase Storage, REST APIs

Tools — Git, GitHub, Android Studio, Firebase Console, Postman, Figma

Architecture & UI — MVVM, Responsive UI, Material Design, Jetpack Compose

Experience

Software Intern, COMU Information Technologies Department 04/08/2025 – 12/09/2025 | Canakkale, Türkiye

- Contributed to Laravel-based web modules and gained hands-on experience in backend logic, database structures and user-oriented application workflows.
- Improved understanding of data management and server-side processes that support mobile and web applications.

Software Intern, KOD286 02/07/2024 – 15/08/2024 | Canakkale, Türkiye

- Worked on software modules for client-oriented web and mobile application projects.
- Gained experience in application development workflows, feature implementation and adapting technical solutions to real user needs.

Education

B.Sc. in Computer Engineering, Tekirdag Namik Kemal University 07/09/2021 – 03/02/2026 | Tekirdag, Türkiye
